Dear Parent/Carer,

### **Car Park Safety**

I want to raise several concerns regarding keeping our car park safe.

Firstly, **vehicles are coming in too fast to drop off, and pick up, children.** The site has a 5 mile per hour restriction.

**Parents and carers cannot come into the car park until 9.10am to drop their children off, and they cannot come in until 2.45pm in the afternoon to collect them.** There have been many days recently where the car park is full and is causing traffic to back up along the estate. **We will be asking any parents who arrive earlier than this to leave the car park.**

**There are pedestrian crossings at both ends of the car park. Cars do not always stop at the first one,** due to the speed that they are going. This is incredibly dangerous.

**Drivers need to turn their engines off when parked in the car park.** It is a legal requirement, to ensure that learners and staff are not inhaling fumes.

**Finally, children are still being walked across the car park from the other side, not using the crossings.** Please either use the crossing, or wait until a space is available and move your car across to the building side of the car park. **Our staff will not collect or drop learners off on the other side.**

Thank you for working with us to keep the car park safe.

Many thanks,

Maggie and the SLG
