Dear Parent/Carer,

Sickness/diarrhoea

If your child has sickness/diarrhoea, please not send them into school for 48 hours (2 days) after their last bout of sickness/diarrhoea and have been able to eat something.

We know that sometimes after being ill, your child may seem fine however, we have very vulnerable students in the school and by adhering to this request, it will help to stop any bugs.

We will try and do everything that we can in school to continue to keep our hygiene standards high however, we have many learners who struggle to understand this, so vigilance is the key to keeping everyone well.

Many thanks for your support.

Kind regards,

The SLG
